

Helpful Clicker Web Sites

This list is not the “end all” or “be all” of e-Instruction clicker web sites, it is simply a list of web sites that I have been jotting down when I come across a site that is helpful when using the CPS software. I’ll keep adding to the list and keep my documents and links updated at this web site: <http://esu3.ishareinfo.org/pkrambeck>

So... with that said, here are a few web sites you may find useful:

Description: you will find a number of downloadable CPS databases to get you started. If you download these files, you can then edit them and make them your own by editing questions, adding questions, adding images, etc. at the sites below:

Kenyon County School District site aimed at maximizing the use of CPS:

http://www.kenton.k12.ky.us/max/max_cps.htm

CPS Database Questions from the Beyond Hardware Instruction site at Carrollton Farmer’s Branch

School: <http://cfbstaff.cfbisd.edu/eleteams/CPSQuestionDatabase.htm>

Navigating e-Instruction’s Web Site:

- **e-Instruction’s Official Web Site:** <http://www.einstruction.com/>
- **e-Instruction’s User Forum:** <http://www.einstruction.com/qdforums/index.cfm>
- **e-Instruction’s Software Download Site:** <http://www.einstruction.com/Downloads/index.cfm>
- **e-Instruction’s On-Line Multimedia Training:** <http://www.einstruction.com/Training/Videos/>

Blog on Clicker Use:

Engaging Technologies: <http://engagingtechnologies.wordpress.com/>

Blue Clicker Chronicles: <http://www.blueclickers.com/blog/>

Informational Site on Using Student Response Systems (Clickers) in the Classroom Setting:

Vanderbilt University Site on the Use of Clickers:

http://www.vanderbilt.edu/cft/resources/teaching_resources/technology/crs.htm#teaching

Using Clickers in the Math Curriculum:
